## **DETAILED ACTION**

### **Claim Rejections - 35 USC § 102**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-15 are rejected under 35 U. S. C. 102(b) as being anticipated by Otaki et al. (US Pat. 6,489,574, herein after Otaki).

Otaki discloses a method comprising: providing a substrate having a first surface and a second surface, the first surface being adapted for mounting an electronic device thereon, the substrate including a grid of electrically conductive vias extending from a region proximate the first surface to a region proximate the second surface, each via being one of a signal via (signal line 8), a ground via (ground pattern 10) and a power via (ground pattern 4); removing at least one of the vias to form a void between at least one ground via and at least one power via; the void comprises a loop around at least one via (figs. 1&2) and connecting each of the at least one ground via proximate the void to one of the at least one power vias proximate the void with a capacitor proximate the second surface of the substrate (col. 5, lines 7-65)
